This talk about the land of the free is discounted when the children look like a rummage sale in a second-hand storewith uncombed hair, ripped pants, buttons off, stockings hanging down-it doesn't take the wisdom of truth to see that that mother is too busy with her social duties, clubs, etc., to pay much attention to the kids.

"I believe in blood; I believe in good blood, bad blood, honest blood and theving blood, in virtuous blood and cowardly blood, in virtuous blood, in drinking blood and sober blood. The lips of the Hapsburg tell of licenticusness. Those of the Stuarts tell of cruelty, bigotry and sensuality, from Mary, Queen of Scots, down to Charles the First and Charles the Second, James the First, who showed the world what your fool of a Scotchman can be when he is a fool—down to King James the Second.

BLOOD TELLS ITS OWN TALE.

BLOOD TELLS ITS OWN TALE. "Scotch blood stands for stubbornness They are full of stick-to-it-iveness, I Mrs. Sunday Is full-blooded Scotch. English blood speaks of reverence for the English. That is shown by the fact that England spent \$50,000,000 recently to put a crown on George's block. Danish blood tells of love of the sea, Welsh blood tells of religious fervor and zeal for God. Jew blood tells of love of money. From the days of Abraham down

"It makes my blood boil when I hear men speak of a Jew and call him a 'sheeny' or a 'Christ killer.' If you ever are kept out of hell and walk the streets of heaven it will be by faith in the blood of a Jow, which was shed on the cross of Calvary, Jesus Christ. Hear me. There is not a crowned head of England that is not a crowned head of England that does not pay usury to a Jew. There isn't a Cabinet that hasn't a Jew for a member. When you and I buy a suit of clothes we pay tribute to the Jew. Jews control the wholesale and retail tailor-made clothes in this country. You never saw a Jew among the hoboes, and a Weary Willie panhandling you for a handout and mooching you for a flap-jack. A Judge who recently sentenced a Jew for a crime paid this tribute to the Hebrew race: 'For the 27 years I have been on the bench you are the first representative of that race that I have ever resentative of that race that I have ever been called upon to sentence for a crime.' All hall the Jew! They are God's chosen people, and with the Jew God is going to save this world.

to save this world.
"Anarchy is not born in the anarchistic riots of the Haymarket. It is kindled in the home. What the child is in the home he will be in the streets and in public. Hear me! Forty-six million farmers in this country are being taught how to take care of the hog, what slop to feed him, how to feed him to add a few extra pounds to his flesh and an extra curi to his tail. And we have got in this country 23 universities that have a department for the study of the American hog, and only one university that has a department for the study of the American boy, and that is study of the American boy, and that is Clark University at Worcester, Mass. In other words, we think more of slopping and feeding the hog than of feeding and training the boy and keeping him out of hell. We are going daffy over money. We

IDLE MOTHER CURSE

"If a boy will not obey his father and mother, he will not obey his social and moral law. If he won't obey you in your home, it is out of such that anarchists, nihilists, bomb-throwers and cutthroats One of the danger signs of our times is the curse of the idle mother. Many a woman never darns a stocking, never a piece of hemstitching on a handcarcasses around, and if they ever go out, it is to some entertainment, some bridge whist party, some Dutch lunch, or out to some opera, and out to some fashionable dressmaker or some fashionable milliner— that eternal routine of bridge whist, dress-makers, milliners; they beat that little path. They never go out to help the poor: pain. They never go out to help the poor; they never try to do anything in the homes of squalor or want; they never try to bridge the chasm and meet the fellow with the dinner bucket. If he goes to church, he thinks they are too stuck up, great, big stiffs, and he tells them to go

uor, 374 smoked cigarettes, 325 had not reached the 4th grade in the public schools, only 26 had ever been in high school, none had ever graduated from school, none had ever graduated from high school. Judge Fawcett, down in Brooklyn, N. Y., in sentencing a boy not long ago, said: 'In the five years I have been on the bench I have sentenced 2700 persons, and not one of them was a member of a Sunday school.' If you want to crush the sources of reformatories on the head, you can do it with Christianity, but one of the worst sources of juvenile crime is the lack of Christianity in the home.

"Susanna Wesley was the mother of 10 children, and she held them for God. When asked how she did it she replied: 'By getting hold of their hearts in their

When asked how she did it she replied: 'By getting hold of their hearts in their youth, and never losing my grip.'

"I believe if the motherhood of this country were no better than the manhood, God would dump the whole thing in hell and quick stop it.

"You listen to me. You will never save Philadelphia from intemperance if you run a booze joint in your home and keep beer and wine in your cellar and on ice in your sideboard. You will never save it from degradation if you run a booze joint in your home. I have had mothers come to me wringing their hands and Joint in your home. I have had mothers come to me wringing their hands and say, 'My God, can't you save my boy! He is a drunkard.' Hew qid is he?' Between 17 and 20 or 22.' 'Do you keep beer in your home, or liquor?' 'Yes,' nine times out of 10. And then they come to me with that plea. You will find liquor in their homes and that is the reason the boy is a drunkard. I believe the greatest work done in this world is done by the true mothers. God did great by the true mothers. God did great by the true mothers. God did great work with matter, but God did greater work by his mother. The mother of the Wesleys did more for this world than some great monarch whose image is carved in marble and cast in bronze, or painted on canvas. I tell you the train-ing of Martin Luther, John Bunyan, Cal-yin and Lincoln is a greater work the vin and Lincoln is a greater work than to be a Caesar, Charlemagne, Alexander the Great. To launch a boy or girl on life for God is a greater work than to launch a battleship.

MAKE HOME ATTRACTIVE.

"Don't shut the door lest the sun fade a little patch of the 65-cent ingrain carpet. Don't pull the blinds and turn the home into gloom. Don't repress the merry laughter that will shake the cobwebs out of the corner. If you want to ruin your home let children understand that all mirth shall be left out. Let them re-gard it as a place in which to eat and sleep and they will be swept along. Young people must have fun. They must have a good time. Then, in God's name, make your homes as attractive as you can for them, so they won't want to go

away. "Let the fire burn, let the lights blaze. I hate to go into a 20-foot square room, lighted by a 16-candle power light. It is the poorest economy in the world to have a dim, dingy home, or a dim, dingy church.

"One-half hour in the family circle will iron out the difficulties of the day. The time will come too soon when the family circle will be broken, the time will come too soon when you will long for the touch of a vanished hand; the saddest time is when the home is gone. I tell you people in old Philadelphia we are drifting away from the old-fashioned home. Fathers are busy, mothers give their children to the care of servants, whose only interest is in the dollars they earn, and they spend five nights a week at some opera, or some card party or bridge whist club. You can clothe your children in silks and satins, bedeck them with French ribbons until they outrival a French milliphons until they outrival a French milliribbons until they outrival a French milli-nery store, and yet they are orphans, though you still live. Show me your children, show me the company you keep, show me the nature of the books you read, and though I have never been in your home, I will write you a perfect history of it, and I will tell you how it came

out.
"If it had not been for the expostulation of the mother of George Washington, George Washington would have become a midshipman in the British navy, and the name of that capital yonder would have been some other. John Randolph said in the House of Representatives: 'If it had Randolph, would have been an infidel. Gray, who wrote the 'Elegy on a Country Graveyard,' said he was one of a large family of children that had the misfortune to survive their mother.' And I believe the ideal mother is the product of a civilization that rose from the manger of Bethlehem.
